## Upgraded Components in New Rein Automotive Water Pump Kit Help Avoid Oil Leaks in Audi and VW 2-liter TSI Engines

### - Aluminum housing and upgraded thermostat gasket improve on OE design

Cranbury, NJ... CRP Automotive ([crpautomotive.com](http://crpautomotive.com)), a leading source of OE-quality replacement and service parts, offers a new Rein Automotive Water Pump Kit (P/N WPU0016) for popular Audi and Volkswagen vehicles with 2-liter TSI gasoline engines from 2008-2018. The Rein Water Pump Kit was developed with upgraded components to help address failure issues with the OE pump and provide a longer service life.

To avoid service issues and failures that develop due to leaking engine oil, the Rein Automotive Water Pump features an aluminum thermostat housing that is more resistant to cracking and breaking than the original plastic housing and comes with an upgraded thermostat gasket that is designed to resist swelling. The kit also includes an OE belt, as well as all of the hardware required to complete the service quickly and avoid parts delays and comebacks. All of the kits are built and 100% pressure tested in the U.S.A.

Application coverage includes Audi A3, A4, A5, A6, Allroad, Q3, Q5, and TT models, and Volkswagen Beetle, CC, EOS, Golf, GTI, Jetta, Passat, Passat CC, Tiguan, and Tiguan Limited models. Total coverage exceeds 1,430,000 VIO in US and Canada.

CRP Automotive has produced an informative video on the Rein Automotive Water Pump Kit, as a part of their *Inside the Brands* video series, which can be viewed here: <https://www.youtube.com/watch?v=t0Mm--PSUc>.

### Easy Online Lookup

The Rein Automotive undercar program features easy lookup on CRP's online application catalog that can be accessed through the CRP Automotive or Rein Automotive brand websites, [www.reinautomotive.com](http://www.reinautomotive.com), or Show Me the Parts, [www.showmetheparts.com/crp/](http://www.showmetheparts.com/crp/).

### **About Rein Automotive**

Rein Automotive offers a wide range of OE-quality automotive replacement parts for import vehicle applications, from motor mounts to hose assemblies and just about everything in-between. Rein programs include AC parts, an antivibration program, an expanded hose program including power steering hoses and a master cooling program inclusive of coolant hoses, water pumps and kits, coolant expansion tanks, thermostats and thermostat assemblies along with caps and sensors. The Rein Automotive name stands for consistent and reliable quality. Only high quality parts wear the Rein Automotive name, whether for European or Asian vehicles.

### **About CRP Automotive**

CRP Automotive, a business unit of CRP Industries, is a leading name in high-quality automotive replacement parts throughout North America. Our family of brands, which includes AAE Steering System Components, REIN Replacement Parts, Pentosin Technical Fluids and AJUSA Gaskets covers a wide range of product categories — and an even more extensive range of vehicle applications. We create sustainable solutions to problems caused by advancing technology — keeping vehicles on the road longer and stronger. To ensure we are always in touch with the current and future needs of the market, we maintain a close connection with the professional repair technicians who select and install our products in imported and domestic vehicles.
