Rein Automotive Automatic Transmission Service Kits Help Restore Proper Fluid Pressure in ZF 6HP Transmissions

- Kits include pan, filter and gasket, pan bolts, valve body adapter and sleeves, harness plug sleeve, fill plug seal

Cranbury, NJ...CRP Automotive, a leading source of OE-quality replacement and service parts, has developed a line of Rein[®] Automotive Automatic Transmission Service Kits to service a wide range of popular import models equipped with ZF 6HP series transmissions. The service kits are provided with all of the parts and components needed for proper transmission service, including the pan, filter and gasket, pan bolts, valve body sealing adapter and sleeves, harness plug sleeve, and fill plug seal. All of the components feature OE form, fit, and function to ensure a reliable and high-quality service.

Created in collaboration with industry professionals that regularly service ZF 6HP transmissions, these kits are an ideal solution to the short-lived valve body sealing sleeves and adapter in ZF 6HP series transmissions. The kits include all the direct-fitting sealing hardware needed to service the shrunken valve body sealing sleeves during the recommended fluid and filter change interval of 62,000 miles/8 years. OE or Pentosin ATF6 synthetic automatic transmission fluid is recommended. After replacement, the Rein Automatic Transmission Service Kits help restore the proper fluid pressure in ZF 6HP 19/26 transmissions.

Four Rein Automatic Transmission Service Kits (P/N TSK0015/TSK0016/TSK0017/TSK0018) are available for servicing popular models from Aston Martin, BMW, Hyundai, Jaguar, Kia, Land Rover, and Rolls-Royce. Coverage exceeds 1.5 million VIO across the United States and Canada.

Easy Online Lookup

The Rein Automotive undercar program features easy lookup on CRP's online application catalog that can be accessed through the CRP Automotive or Rein Automotive brand websites, www.reinautomotive.com, or Show Me the Parts, www.showmethепarts.com/crp/.

About Rein Automotive

Rein Automotive offers a wide range of OE-quality automotive replacement parts for import vehicle applications, from motor mounts to hose assemblies and just about everything in-between. Rein programs include AC parts, an antivibration program, an expanded hose program including power steering hoses and a master cooling program inclusive of coolant hoses, water pumps and kits, coolant expansion tanks, thermostats and thermostat assemblies along with caps and sensors. The Rein Automotive name stands for consistent and reliable quality. Only high quality parts wear the Rein Automotive name, whether for European or Asian vehicles.

About CRP Automotive

CRP Automotive, a business unit of CRP Industries, is a leading name in high-quality automotive replacement parts throughout North America. Our family of brands, which includes AAE Steering System Components, REIN Replacement Parts, Pentosin Technical Fluids and AJUSA Gaskets covers a wide range of product categories — and an even more extensive range of vehicle applications. We create sustainable solutions to problems caused by advancing technology — keeping vehicles on the road longer and stronger. To ensure we are always in touch with the current and future needs of the market, we maintain a close connection with the professional repair technicians who select and install our products in imported and domestic vehicles.
